

**ROYAL NAVY
TASK GROUP OPERATION ORDER**

**OPORD: OPERATION TRIDENT
DATE: 2026-06-19**

1. Situation

Enemy Forces

Intelligence reports an Akula-class submarine operating within the area. The submarine is assessed to have launched a heavyweight torpedo. Last known torpedo position is (0,0). Estimated torpedo speed is 60 knots.

Friendly Forces

HMS Diamond is operating within the task group.

2. Mission

HMS Diamond is to avoid enemy engagement and proceed on an evasive transit to the designated safe zone.

3. Execution

Friendly vessel will commence transit from position (20,40). Commanding Officer is authorised to vary speed between 20 and 35 knots. Countermeasures are to be deployed when the torpedo closes to within 20 nautical miles.

4. Objective

Generate safe zones using the following planning parameters.
Objective point distance: 100 NM
Objective point bearing: 360°
Objective point quantity: 6
